

Safety Pledge

I will never sacrifice my safety or the safety of my fellow workers in the pursuit of production, quality, lower cost or morale.

I will always be watchful for unsafe acts and, if observed, I will assist my co-worker to find a safer way to do the job.

I will wear proper personal protective equipment at all times.

*No job is worth sacrificing safety. I will comply with all safety policies and programs and **NEVER** take safety shortcuts.*

I know the hazards of each job I perform and know how to complete the job safely.

I will report all workplace hazards and take action for their prompt remediation.

I understand that safety is my job every day on every project.
